10.13.1 The NWTMN may only establish conditions on access under 10.11.1 with the agreement of Government to:

- (a) address additional requirements for notice or registration by persons exercising such access;
- (b) identify specific areas or periods of time in which such access may be limited, or not exercised, in order to protect the Environment; or
- (c) minimize the impact on Harvesting and the social and cultural environment.

10.13.2 If the NWTMN and Government do not reach agreement on an additional condition proposed under 10.13.1, the NWTMN may refer the dispute for resolution in accordance with the Dispute Resolution chapter but may not establish the condition until the dispute has been resolved.

10.13.3 The NWTMN will take reasonable measures to notify the public of any additional conditions which may be established under 10.13.1 or 10.13.2.

10.14 Other Conditions on Access to Reach Adjacent Land for Commercial Purposes

10.14.1 The NWTMN and any person may agree to vary the conditions which apply to that person's access to Métis Lands under 10.11.1.

10.14.2 If any person seeking to exercise access under 10.11.1 is unable to comply with the conditions set out in 10.12.1 or 10.12.2, or any additional

conditions established under 10.13.1, that person may exercise access under varied conditions agreed to with the NWTMN. If the NWTMN and that person do not reach agreement on such conditions, the person may refer the dispute to the Surface Rights Board for resolution but may not exercise access under any proposed varied conditions until the dispute has been resolved. The Surface Rights Board will determine whether such access is reasonably required and, only if so determined, make an access order which ensures the access is exercised on a suitable route least harmful to Métis Members.

10.15 Subsurface Access

- 10.15.1 Government or a person having a right to explore, develop or produce Minerals under or on Métis Land has a right of access to Métis Land and Water overlying such lands for the purposes of exploring, developing, producing or transporting Minerals with the agreement of the Designated Métis Organization.

- 10.15.4 The rights exercisable in 10.15.3 are subject to conditions related to access to Métis Land for the purposes of prospecting for Minerals and locating claims.
- 10.15.5 Prior to the Final Agreement, the Parties will set out conditions related to access to Métis Land for the purposes of prospecting for Minerals and locating claims.

- 10.16.6 If the Minister of National Defence and the NWTMN do not reach agreement under 10.16.5, the Minister of National Defence may refer the dispute for resolution in accordance with the Dispute Resolution chapter, but the Department of National Defence and the Canadian Forces and any members of foreign armed forces serving with, or under the operational control of, the Canadian Forces, may not exercise access until the dispute has been resolved.
- 10.16.7 Nothing in the Final Agreement will limit the authority of the Minister of National Defence under section 257 of the *National Defence Act*.

10.17.1 Unless otherwise agreed to by the NWTMN, any person exercising access under 10.16.1 is subject to conditions that the person:

- (a) does not cause unnecessary damage to Métis Land, or structures on Métis Land, and is responsible for any such damage;
- (b) does not commit any mischief; and
- (c) does not unnecessarily interfere with the use and peaceable enjoyment of Métis Land by the NWTMN or a Métis Member.

10.17.2 Government will give notice to the NWTMN before exercising access under 10.16.1 when it is reasonable to do so.

10.17.3 If Government requires the continuous use or occupancy of a parcel of Métis Land for more than two years, for any purposes other than those set out in 10.16.3, or 10.20.1, the NWTMN may require Government to acquire an interest in the parcel of Métis Land for that purpose by agreement.

10.17.4 If Government and the NWTMN do not reach agreement on the acquisition of an interest in Métis Land under 10.17.3, either party may refer the dispute for resolution in accordance with the Dispute Resolution chapter.

10.17.5 Unless otherwise provided in an agreement with the NWTMN, where access under 10.16.8 results in damage to Métis Land, or interference with the use of and peaceable enjoyment of Métis Land by the NWTMN or a Métis Member, the person exercising the access will, notwithstanding 10.16.10, compensate the NWTMN, in the case of damage to Métis Land, or the Métis Member whose use or peaceable enjoyment has been

interfered with.

- (c) minimize the impact of Harvesting on the social and cultural environment.

- 10.18.2 If the NWTMN and Government do not reach agreement on an additional condition proposed under 10.18.1, the NWTMN may refer the dispute for resolution in accordance with the Dispute Resolution chapter but may not establish the condition until the dispute has been resolved.

- 10.18.3 Additional conditions on access under 10.16.1 and 10.16.8 may be established by agreement between the NWTMN and the person to whom such conditions would apply.

- 10.18.4 Additional conditions may not be established in accordance with 10.18.1, whether through agreement with Government or the process set out in the Dispute Resolution chapter, for the exercise of access in relation to law enforcement, investigations or inspections under Law or in relation to national defence or national security.

10.20.3 No rent, fee, charge or compensation is payable to the NWTMN for:

- (a) access under 10.20.1;
- (b) the use of Specified Substances or other natural resources under 10.20.2; or

10.21 Additional Conditions by Agreement on Government Access to Remediate Contaminated Sites on Crown Land and Métis Land

10.21.1 The NWTMN may only establish conditions on access under 10.20.1 with the agreement of Government to address:

- (b) access set out in 10.20.1 or 10.20.2,

either may refer the dispute for resolution in accordance with the Dispute Resolution chapter.

10.23 Linear Project Access

- 10.23.1 Prior to the Final Agreement, the Parties will discuss provisions for access to Métis Land for the purpose of planning, constructing, operating and maintaining Linear Projects.

CHAPTER 11: EXPROPRIATION

11.1 General

- 11.1.1 As a general principle, Métis Land will not be expropriated. However, if Expropriation of Métis Land is necessary, only the most limited interest will be expropriated in accordance with the Expropriation chapter.
- 11.1.2 Where the fee simple interest in a parcel of Métis Land is expropriated, the parcel of land ceases to be Métis Land.
- 11.1.3 Where less than a fee simple interest in a parcel of Métis Land is expropriated:
- (a) the parcel of land retains its status as Métis Land; and
 - (b) Métis Members and any interest holder may continue to use and occupy the parcel of land, except to the extent the use or occupation is, in the opinion of the entity holding the Expropriated interest, inconsistent with the purposes for which the parcel of land was Expropriated.
- 11.1.4 Except to the extent that the provisions of the Expropriation chapter modify the application of Law relating to the Expropriation of an interest in a parcel of Métis Land, all Law relating to Expropriation applies to the Expropriation of an interest in a parcel of Métis Land under the Expropriation chapter.
- 11.1.5 The provisions of the Expropriation chapter do not apply to the Expropriation of any interest in a parcel of Métis Land held by any person other than a Designated Métis Organization or a Métis Member. Expropriation of such interests will be conducted in accordance with Law.
- 11.1.6 Government and any entity for which land may be expropriated have a right of access to Métis Land and Waters overlying Métis Land to identify the suitability, precise location and size of any land to be expropriated under 11.3.1. No rent, fee, charge or compensation or costs incurred by a Designated Métis Organization are payable to a Designated Métis Organization for such access.

11.2 Attempt to Negotiate an Agreement Before Expropriation

11.2.1 Any entity which proposes to acquire an interest in Métis Land will:

- (a) notify a Designated Métis Organization regarding the need to acquire an interest in a parcel of Métis Land, including the nature, location, size and duration of the interest to be acquired; and
- (b) make a reasonable attempt to negotiate an agreement with a Designated Métis Organization for the transfer of the required interest so as to avoid the need for Expropriation.

11.2.2 Where agreement is not reached under 11.2.1(b) between a Designated Métis Organization and the entity which proposes to acquire an interest in Métis Land, that entity may request the entity authorized by Law to expropriate land to proceed with expropriating an interest in Métis Land.

11.2.3 Any entity authorized to expropriate land will provide a Designated Métis Organization with at least 30 days' notice of its intention to seek the consent of the Governor-in-Council or the Executive Council, as the case may be, to the Expropriation of the interest in Métis Land.

11.3 Expropriation

11.3.1 Any entity authorized by Law to expropriate an interest in Métis Land will not proceed with its Expropriation process until consent to expropriate has been obtained from the:

- (a) Governor-in-Council where Expropriation is under federal Law; or
- (b) Executive Council of the Government of the Northwest Territories where Expropriation is under Territorial Law.

11.3.2 The Governor-in-Council or the Executive Council, as the case may be, may only give its consent for the Expropriation of an interest in a parcel of Métis Land when satisfied that:

- (a) there is no reasonably feasible alternative land to acquire that is not Métis Land;
- (b) only the most limited interest required will be expropriated; and
- (c) the conditions set out in 11.2.1 have been met.

11.4 Compensation

11.4.1 When an interest in a parcel of Métis Land is expropriated under 11.3, the entity holding the expropriated interest will offer a Designated Métis Organization compensation equivalent to the value of the expropriated interest in the form of:

- (a) an interest in lands owned by the entity holding the expropriated interest within the Agreement Area that are of equivalent significance and value and which the entity considers available for this purpose;
- (b) cash or other consideration, if no land is offered or accepted by a Designated Métis Organization; or
- (c) a combination of land and cash or other consideration, if sufficient land of equivalent significance and value is not offered or is not accepted by a Designated Métis Organization.

11.4.2 If the entity holding the expropriated interest does not have land to offer as compensation under 11.4.1(a) or 11.4.1(c):

- (a) Canada, in the case of an Expropriation under federal Law; or
- (b) the Government of the Northwest Territories, in the case of an Expropriation under Territorial Law,

will make reasonable efforts to provide that entity with land, by sale or exchange, to be provided to a Designated Métis Organization as compensation.

11.4.3 If a Designated Métis Organization and the entity holding the expropriated interest do not reach agreement on compensation within 60 days' from the first offer of compensation, either of them may refer the dispute for resolution in accordance with the Dispute Resolution chapter. An arbitrator may only make an order of compensation in the form of an interest in land owned by the entity holding the expropriated interest that is acceptable to a Designated Métis Organization, cash or a combination thereof. If a fee simple interest in land is acquired by a Designated Métis Organization pursuant to this provision, the parcel of land may, with the agreement of the Parties, become Métis Land.

11.4.4 A dispute on compensation, including the valuation of replacement land, under 11.4.3 will not delay the Expropriation by the entity authorized by Law to expropriate the interest in Métis Land.

11.4.5 For the purposes 11.4.1, 11.4.2 or 11.4.3, an interest in land is not available to be provided as compensation if it is:

- (a) subject to a lease or an agreement for sale, or other property interest unless the entity holding the expropriated interest and the person holding the interest consent;
- (b) occupied or used by, or required for future occupation or use by the entity holding the expropriated interest;
- (c) part of a public road; or
- (d) for any other reason determined by an arbitrator to be unavailable.

11.5 Determination of the Value of Métis Land

11.5.1 In determining the value of an interest in a parcel of Métis Land to be expropriated, the following factors will be taken into account:

- (a) the market value of the interest;
- (b) the value of the interest for purposes of Fish and Wildlife Harvesting by Métis Members;

- (c) the cultural value of the interest to Métis Members; and
- (d) any other factor set out in Law authorizing the Expropriation.

11.6 Determination of the Value of Any Land to be Provided as Compensation

11.6.1 In determining the value of an interest in land to be provided as compensation, the following factors will be taken into account:

- (a) the market value of the interest;
- (b) the value of the interest for purposes of Fish and Wildlife Harvesting by Métis Members; and
- (c) the cultural value of the interest to Métis Members.

11.7 Return of Land Expropriated Pursuant to Federal Law

11.7.1 Where an interest in a parcel of Métis Land expropriated under federal Law is no longer required for the purpose for which it was expropriated, the entity holding the expropriated interest will ensure that the interest in land is returned to a Designated Métis Organization on the terms and conditions negotiated in accordance with 11.7.3.

11.7.2 The entity holding the expropriated interest may decide that the expropriated interest is no longer required and may determine the disposition of any improvements consistent with any agreement made in accordance with 11.7.3.

11.7.3 The terms and conditions of the return of an expropriated interest in Métis Land, including requirements relating to financial considerations based on market value principles, the condition of the land to be returned, and the process for resolving disputes on the implementation of the terms and conditions, will be negotiated by a Designated Métis Organization and the entity holding the expropriated interest as soon as practicable after the interest has been expropriated.

11.7.4 Subject to 11.7.5, if the terms and conditions of the return of an expropriated interest in Métis Land cannot be agreed upon by a

Designated Métis Organization and the entity holding the expropriated interest at the time of the Expropriation, either a Designated Métis Organization or the entity holding the expropriated interest may refer the dispute for resolution in accordance with the Dispute Resolution chapter.

- 11.7.5 A dispute on the terms and conditions of the return of land under 11.7.4 will not delay the Expropriation by the entity authorized by Law to expropriate the interest in Métis Land.
- 11.7.6 If a fee simple interest is acquired by a Designated Métis Organization pursuant to these provisions, the parcel of land may, with the agreement of the Parties, become Métis Land.
- 11.7.7 For greater certainty, a transfer of an interest expropriated under 11.3.1 to a successor or assignee does not itself trigger the application of 11.7.1.

11.8 Return of Land Expropriated Pursuant to Territorial Law

- 11.8.1 Where an interest in a parcel of Métis Land expropriated under Territorial Law is no longer required as determined by the entity holding the interest:
- (a) the NWTMN will have a right of first refusal to purchase the interest at a price to be established by the entity holding the expropriated interest; and
 - (b) the entity holding the expropriated interest may not dispose of the interest for a lower price than what has been offered to the NWTMN.
- 11.8.2 If a fee simple interest is acquired by the NWTMN pursuant to this provision, the parcel of land may, with the agreement of the Parties, become Métis Land.
- 11.8.3 For greater certainty, a transfer of an interest expropriated under 11.3.1 to a successor or assignee does not itself trigger the application of 11.8.1.

11.9 Expropriation for Public Roads

- 11.9.1 Notwithstanding 11.4 and any Law, Government may expropriate Métis Land in accordance with the Final Agreement for use as a public road without compensation payable to a Designated Métis Organization.
- 11.9.2 Métis Land expropriated under 11.9.1 may not be used for any purpose other than a public road without payment of compensation to a Designated Métis Organization in accordance with 11.4.
- 11.9.3 If there is a dispute between Government and a Designated Métis Organization regarding the location of a public road for which Métis Land is to be expropriated under 11.9.1, either party may refer the dispute for resolution in accordance with the Dispute Resolution chapter.
- 11.9.4 If Métis Land expropriated under 11.9.1 is, in the opinion of Government, no longer required for a public road, Government will grant the fee simple interest in those lands back to a Designated Métis Organization and they will become Métis Land.
- 11.9.5 The amount of land expropriated under 11.9.1 and not granted back to a Designated Métis Organization under 11.9.4 will not exceed, at any time, 97 square kilometres.

11.10 *National Energy Board Act* Expropriation

- 11.10.1 Any dispute between the entity holding the expropriated interest and a Designated Métis Organization regarding compensation for Métis Land expropriated under the *National Energy Board Act* will be referred to an arbitration committee appointed under that Act instead of arbitration under the Dispute Resolution chapter.
- 11.10.2 An arbitration committee will not be appointed under the *National Energy Board Act* for a dispute referred to in 11.10.1 until the parties to the dispute have participated, at the election of the entity holding the expropriated interest, in either negotiations under the *National Energy Board Act* or mediation in accordance with the Dispute Resolution chapter.

11.10.3 If an arbitration committee is appointed under the *National Energy Board Act* to resolve a dispute referred to in 11.10.1, a Designated Métis Organization will be provided an opportunity to nominate at least one individual to the arbitration committee.

12.6.2 Unless otherwise required by Law or agreed by Canada at the time, Canada will not be responsible for the costs of any subsequent surveys of Métis Community Land.

12.6.3 Surveys referred to in 12.6.1 and 12.6.2 will be conducted in accordance with the *Canada Lands Surveys Act* and the instructions of the Surveyor General of Canada. The completed surveys will be deposited in the Canada Lands Survey Records.

12.7.2 There will be no fee or costs charged by Government for the initial vesting, grant or transfer of any title in or to a Designated Métis Organization or for the initial issuance of a certificate of title to a Designated Métis Organization under 12.1.2 or 12.7.1.

12.8 Additions to Métis Community Land

12.8.1 Land acquired by the Designated Métis Organization within a Community Boundary will not become Métis Community Land, unless the Parties agree otherwise in writing.

12.9 Changes in Community Boundaries

12.9.1 Government will Consult the NWTMN prior to any change in a Community Boundary within the Agreement Area. Government will consult the NWTMN prior to any change in the boundary of the community of Enterprise that is contiguous to the Agreement Area.

12.9.2 Once a new Community Boundary is established:

- (a) Métis Land within the new Community Boundary will become Métis Community Land; and
- (b) Métis Community Land beyond the new Community Boundary may become Métis Land upon agreement of the Parties.

12.10 Contaminated Sites

- 12.10.1 Government will apply any program it has for the Remediation of Contaminated Sites on Crown Land within the Agreement Area to the Remediation of Contaminated Sites on Métis Community Land identified in Schedule “12-E” on the same basis as it applies the program to Crown Land.
- 12.10.2 After the Effective Date, the Minister of Indian Affairs and Northern Development on behalf of Canada, the Government of the Northwest Territories and the NWTMN may agree in writing that a Contaminated Site on Métis Community Land not identified in Schedule “12-E” existed prior to the Effective Date and, if an agreement is reached, Schedule “12-E” will be deemed amended to include the Contaminated Site. If the Parties do not reach an agreement within 90 days, any Party may refer the dispute for resolution in accordance with the Dispute Resolution chapter. If an arbitrator confirms the Contaminated Site existed prior to the Effective Date, Schedule “12-E” will be deemed amended to include the Contaminated Site.
- 12.10.3 Government will be responsible for the costs associated with any Remediation of a Contaminated Site on Métis Community Land pursuant to 12.10.1. For greater certainty, nothing in the Final Agreement will prevent or limit Government from pursuing any remedies that may exist at Law against the person liable for the contamination.

CHAPTER 25: DISPUTE RESOLUTION

25.1 Definitions

25.1.1 In this chapter:

"Disputants" means:

- (a) Parties who have agreed to resolve a dispute in accordance with the Dispute Resolution chapter;
- (b) persons who are required by the Final Agreement to resolve a dispute under the Dispute Resolution chapter; or
- (c) persons having a right under the Final Agreement to seek the resolution of a dispute under the Dispute Resolution chapter.

25.2 General

25.2.1 The Dispute Resolution chapter will apply only to the following types of disputes:

- (a) any matter where the Final Agreement stipulates that a person "may refer the dispute for resolution in accordance with the Dispute Resolution chapter";
- (b) a dispute between Government and the NWTMN concerning the interpretation or application of the Final Agreement; or
- (c) any matter which an agreement between Government and the NWTMN stipulates may be resolved in accordance with the Dispute Resolution chapter.

25.2.2 The Disputants will use best efforts to resolve disputes referred to in 25.2.1 through the process set out in the Dispute Resolution chapter.

25.2.3 Disputes referred to the Dispute Resolution chapter for resolution or determination will progress through the following steps:

- (a) informal discussion;

- (b) mediation;
- (c) binding arbitration, if agreed to by the Disputants, or if stipulated by this Agreement; and
- (d) commencement of court proceedings in accordance with the Dispute Resolution chapter.

- 25.2.4 Disputants may agree to vary a procedural requirement contained in the Dispute Resolution chapter, as it applies to a particular dispute.
- 25.2.5 Disputants may at any time resolve their dispute by an agreement in writing. Notification of any such agreement will be provided to all Parties.
- 25.2.6 Nothing in the Dispute Resolution chapter will be construed to prevent the Disputants from agreeing to refer their dispute for a determination under a court process or to an alternate dispute resolution mechanism such as arbitration pursuant to the *Arbitration Act*.
- 25.2.7 Nothing in the Dispute Resolution chapter prevents a Disputant from commencing arbitration or judicial proceedings at any time:
- (a) to prevent the loss of a right to commence proceedings due to the expiration of a limitation period; or
 - (b) to obtain interlocutory or interim relief that is otherwise available pending resolution of the dispute under the Dispute Resolution chapter.
- 25.2.8 If a dispute has been referred to mediation or arbitration under the Dispute Resolution chapter, no other mediation or arbitration process provided by Legislation applies.
- 25.2.9 If a Métis Member has a right of action in relation to the Final Agreement, the NWTMN may, with the consent of the Métis Member, bring that action on behalf of the Métis Member.
- 25.2.10 All communications undertaken by a Disputant during an informal discussion or mediation process under the Dispute Resolution chapter will be “without prejudice” to any position the Disputant may take in any other

legal process, including arbitration pursuant to the Dispute Resolution chapter. Unless the Disputants agree otherwise, they will treat all such communications as confidential.

25.3 Roster of Mediators and Arbitrators

25.3.1 The Parties will develop and maintain a roster of candidates to act as mediators and arbitrators who have:

- (a) a familiarity with the circumstances of the Parties; and
- (b) the skills, abilities and expertise to act as a mediator or an arbitrator.

25.3.2 The Parties will place up to twelve (12) candidates on the roster based on a nomination of four (4) candidates from each Party.

25.4 Informal Discussion

25.4.1 Upon notice of a dispute from a Disputant, the Disputants will have informal discussions in an attempt to resolve the dispute informally prior to proceeding to mediation or arbitration.

25.5 Mediation

25.5.1 If an agreement has not been concluded through informal discussions within 30 days, or another period agreed to by the Disputants, a Disputant may deliver a notice to the other Disputants to proceed to mediation.

25.5.2 Upon receiving a request from a Disputant to proceed with mediation, the Disputants will agree on a mediator from the roster under 25.3.1 within 10 days.

25.5.3 In the absence of agreement under 25.5.2, Disputants may request an alternate dispute resolution organization to recommend a mediator. In the absence of agreement, a Disputant may apply to the Supreme Court of the Northwest Territories to appoint a mediator.

25.5.4 The mediator will, without delay, consult with the Disputants and arrange for the commencement of the mediation.

- 25.5.5 Unless the Disputants agree otherwise, the mediation will be held in the Northwest Territories.
- 25.5.6 Prior to the Final Agreement, the Parties will determine the period of time for mediation.
- 25.5.7 Each Disputant will bear its own costs to participate in the mediation. All other costs of mediating a dispute, including the remuneration and expenses of the mediator, and costs associated with the process, will be shared equally among the Disputants, unless otherwise provided for in the Final Agreement or the Implementation Plan.
- 25.5.8 Upon termination of the mediation proceedings, the mediator will submit a mediation report to:
- (a) the Disputants; and
 - (b) the Surface Rights Board, in the case of a dispute that would be referred to that Board pursuant to 25.7.
- 25.5.9 Unless the Disputants agree otherwise, the mediation report will be confidential in accordance with Legislation.
- 25.5.10 Prior to the Final Agreement, the Parties will establish principles or procedures for mediation, including criteria for determining whether there have been adequate attempts to resolve a dispute by informal discussion for the purposes of 25.2.3 and 25.4.1 and confidentiality.

25.6 Arbitration

- 25.6.1 If an agreement has not been concluded through mediation within 60 days' from the date the mediator is appointed, or any other period agreed to by the Disputants:
- (a) in the case of a dispute that the Final Agreement stipulates "may be resolved in accordance with the Dispute Resolution chapter", a Disputant may deliver notice to the other Disputant to proceed to arbitration when applicable under 25.2.3(c); and

- (b) in the case of any other dispute:
 - (i) the Disputants may agree to proceed to arbitration, court or another dispute resolution process; or
 - (ii) a Disputant may commence court proceedings.

25.6.2 Where a dispute proceeds to arbitration, the Disputants will agree on an arbitrator from the roster under 25.3.1 within 14 days.

25.6.3 In the absence of agreement under 25.6.2, Disputants may request an alternative dispute resolution organization to recommend an arbitrator. In the absence of agreement, a Disputant may apply to the Supreme Court of the Northwest Territories to appoint an arbitrator.

25.6.4 Unless the Disputants agree otherwise, an individual who has acted as mediator in a dispute cannot act as an arbitrator for that dispute.

25.6.5 Any Party has standing in any dispute that is referred to arbitration pursuant to the Dispute Resolution chapter.

25.6.6 On application and on such terms as the arbitrator may order, an arbitrator may allow any person that is not a Disputant to participate as an intervener in an arbitration if, in the opinion of the arbitrator, the interest of that person may be directly affected by the arbitration.

25.6.7 Subject to the rules established by the Parties and the provisions of the Final Agreement, the arbitrator may, in relation to any matter before the arbitrator:

25.6.9 A decision of an arbitrator will be conclusive and binding on the Disputants and will not be challenged by appeal or review in any court except on the ground that the arbitrator has erred in Law or exceeded the arbitrator's jurisdiction.

25.6.10 Each Disputant, and any intervener, will bear their own costs to participate in the arbitration. All other costs of arbitrating a dispute, including the remuneration and expenses of the arbitrator, and costs associated with the process, will be shared equally among the Disputants, unless the arbitrator decides otherwise.

25.6.11 A Disputant may, after the expiration of 14 days' from:

(a) the date of the release of an arbitration decision or order; or

(b) the date provided in the decision for compliance,

whichever is later, file in the Registry of the Supreme Court of the Northwest Territories a copy of the arbitration decision or order and the decision or order will be entered as if it were a decision or order of the Court. On being entered, the arbitration decision or order will be deemed, for all purposes except for an appeal from it, to be an order of the Supreme Court of the Northwest Territories and enforceable as such.

25.6.12 Prior to the Final Agreement, the Parties will establish procedures for arbitration, including confidentiality, which will provide for an expeditious process.

25.7 Surface Rights Board

25.7.1 Members of the Surface Rights Board will be residents of the Northwest Territories. When dealing with Métis Land, the Surface Rights Board will act through a panel of its members at least one of whom will be a resident of the Agreement Area.

25.7.2 Prior to the Final Agreement, the Parties will discuss how the *Surface Rights Board Act* will apply to Métis Land, including any necessary consequential amendments to the Act.

26.1.9 The NWTMN will cause to be established, prior to the date of settlement Legislation, and will thereafter maintain, a public register of Designated Métis Organizations, which register will identify all rights and obligations assigned pursuant to 26.1.1 to Designated Métis Organizations.

26.1.10 Government will not be liable to Métis Members for any damage or loss suffered by Métis Members as a result of the failure of any Designated Métis Organization to comply with an obligation under the Final Agreement.

26.1.11 The provisions of this chapter will be reviewed by the Parties prior to the Final Agreement with a view to reconciling them with the creation of self-government entities to avoid unnecessary duplication and inefficiency.
